

Four Tier Drug List - Metallic Plans

Pharmacy Coverage

Your plan covers drugs on the Four Tier Drug List for metallic plans. This is a list of prescription generic, brand-name, and specialty drugs that have been approved by the FDA. If your drug is not on this list, it will not be covered; however, a request for coverage can be submitted through the Drug List Exception Process.

This drug listing does not include every dosage or formulation of each medication. In some cases, only certain dosages or formulations of a medication are covered. Drugs with a “+” indicator next to them on the Drug List have group-specific coverage. We encourage you to use our searchable formulary tool (“Find Medicines”), available on our website.

Changes to the Drug List

This list is updated regularly. Please login to your member portal on [Regence.com](https://www.regence.com) for the most up to date list.

Finding the Cost of Your Drug

With the Four Tier Drug List for metallic plans, covered prescription drugs fall into one of four tiers, which are shown below. What you pay depends on which tier your medication is in. Your Summary of Benefits and Coverage document will show you what you owe for each tier, which is called your cost share. Cost share can be a deductible, a flat dollar copay, or a percentage (coinsurance) of the medication’s total cost.

Tiers

Tier	Drug type
Tier 1	<u>Generic</u> drugs usually have the lowest copay.
Tier 2	<u>Preferred Brand</u> drugs usually have a lower copay than brand-name drugs.
Tier 3	<u>Brand</u> drugs usually have a higher copay than preferred brand-name drugs.
Tier 4	<u>Specialty Medications</u> usually have a higher copay than brand-name drugs. Specialty medications are used to treat rare or complex medical conditions. They are typically high cost, self-administered drugs that require support to manage and administer.

Filling Your Prescription at a Retail Pharmacy

We have a nationwide network of more than 65,000 participating and preferred pharmacies. To have your drugs covered, you may need to use a participating network pharmacy and show your member card before purchasing your prescription. If you go to a pharmacy not in the network, your medication may not be covered. Most pharmacies can fill up to a 90-day supply of maintenance drugs. However, some independent retail pharmacies may not be able to dispense a 90-day supply.

Definitions	
Drug Tier	The number in this column shows which tier the drug is covered under.
Pre- Authorization (PA)	Drugs with a PA in the requirements/limits column require pre-authorization for medical necessity. This means your health plan must approve use of the drug based on medication coverage policies before it is covered under your plan. For more information on how to request PA approval, possible treatment alternatives, and medication coverage criteria, please visit our website or contact

Definitions

Quantity Limits (QL)	Drugs with a QL in the requirements/limits column have a quantity limit. This means we only cover a certain amount of the medication. If your doctor prescribed more than this limit, you may request a quantity limit exception.
Abortion Cost Share (AB) <small>(Applicable to most Washington and Oregon plan participants.)</small>	Drugs with an AB in the requirements/limits column are considered to be abortifacients. These medications may be covered at 100%, depending on your plan's coverage.
Affordable Care Act (ACA)	Drugs with ACA in the requirements/limits column are considered preventive medications under the Affordable Care Act. If your plan participates in ACA coverage, these medications are covered at 100%. This means you do not pay anything for these medications regardless of the tier value listed. Visit our website for complete lists of medications covered under ACA, such as the ACA Preventive Medication List, ACA Contraceptive List, and ACA Tobacco Cessation List.
Blood Factor Products (BF)	Blood Factor products with a BF in the requirements/limits column will be covered on either the pharmacy or the medical benefit, per group-specific contract requirements. These products are considered specialty medications and will be limited to a 30-day supply. If covered on the pharmacy benefit, they will be required to be filled through a designated specialty pharmacy.
Chemo (CH)	Drugs with a CH in the requirements/limits column are considered cancer chemotherapy medications. Your cost share amount may vary from the tier value listed. Please see your benefits plan documents (e.g., plan policy) for the cancer chemotherapy medication cost share amounts. They may be found in the "Self-Administrable Cancer Chemotherapy Medications" section of your policy documents.
Cost Share Caps (CC)	Drugs with a CC in the requirements/limits column may be subject to a cost cap on the total amount you pay, when purchased through a participating pharmacy. Your cost share amount may vary from the tier value listed, depending on the state in which your plan is based.

Definitions	
	<p>State Specific Cost-Sharing Caps:</p> <ul style="list-style-type: none"> • All insulin - applicable to most ID, OR, UT and WA plan participants. • Epinephrine autoinjectors - applicable to most WA plan participants. • Preferred inhaled corticosteroid inhalers (including combination products) - applicable to most WA plan participants.
Specialty (SP)	<p>Drugs with a SP in the requirements/limits column are considered specialty medications. These drugs are limited to a 30-day supply and may be required to be filled through our designated specialty pharmacy.</p>
